**Dear Sir/Madam,**

I would like to apply for the position of **Project Manager** at your company. My name is **Babadr Ahmed Saleh Salem Babadr** from **Saudi Arabia**. I Graduated from **Multimedia University** in **Cyberjaya, Malaysia** on **March 2015** with **Bachelor Degree in Information Technology (Software Engineering)**.

I worked at (**Tawseel**) **Al-Hamam Al-Zajel for Information Technology Company** as **Managing Director**. **Tawseel** is On-demand delivery platform that matches clients who have items to ship with freelance drivers available to deliver parcels, packages, food, etc. . I was Responsible and playing multiple roles since we established **Tawseel Startup** with small team members. I was involved on developing the system since **Tawseel** was a research project in **Makkah Techno Valley Company**. Additionally I was leader and involved on **Operations Marketing , Finance and Customer Support** teams. Mainly I was responsible for **System Analytics reports** and managing the team and handing the **Regulatory Documents**.

I am proficient in **Software Development Life Cycle (SDLC), Agile Software Development , Google Firebase, Java, XML, C#, ASP.NET, HTML, CSS, PHP, MySQL, MsSQL JavaScript and Unified Modeling Language (UML)**. I am eager to be given a full-time role where I can gain further knowledge and experience. I also have a knowledge of **AWS , Google Cloud, Java Design Patterns, , C++, SQLite, MySQL, Web Services and PhoneGap (Cordova) .**

I have earned **Microsoft Technology Associate Web Development Fundamentals using ASP.NET & C# Certificate**. Moreover, I have worked with **TapWay** in **Malaysia** on their project **Eventgelist** that is **Android App using Near Field Communication (NFC) Technology** and its **Cloud-based Solution**. Additionally, I have designed and programmed various **Android applications** and published to **Google play store (Developer ID: ahmadssb)**. In my **final year project** I have designed and programmed an **E-Learning Application** for Kids named "**Let's Learn Arabic**" for **Android Platform** using **Java and XML** where I am used **Socket Technology** to connect two devices together within the same local area network in order to play games together at real-time. Moreover, I have participate and won **First-Place Award** with my **Android project "LET'S LEARN ARABIC"** in "**Technical Initiatives to Serve Arabic Language**" competition that arranged by **Saudi Arabian Cultural Mission in Malaysia**.

I have published multiple application which you can browse them from my online resume, which **I strongly suggest that you check it out**. It includes all necessary documents and photos of my works with **smooth display effects** using (**HTML - CSS - JavaScript - JQuery - LightBox**).
